

Chronicles of Ginger ~ Ambassador for God's Abundance

with the New Earth Alliance

God's Daughter of Jubilee - Part 5 5/29/23

Good evening, Liberty Loungers! We are so excited you're here. It is May 29th, and we are going to enjoy a new live stream of Chronicles – Part 5!! Let's open up in a word of prayer.

Dear Heavenly Father, I pray in the name of Jesus, you would minister to your people now. I pray that you would give them strength, give them sustenance, give them the encouragement that their souls need right now. I pray that all within the sound of my voice would feel the extra-special closeness from you, dear Father. I pray that you would minister to them whatever codes of Light are put into my voice, to give them whatever they need – whether it is healing, whether it is peace, whether it is calm understanding, whether it is increased discernment, whether it is upgrading their DNA – whatever they need, God, I ask it to be, in the name of Jesus. I pray in thanksgiving for your watch care, your provision, your guidance, your instruction. I thank you for the time to spend with these precious ones. God, I want to be a conduit of You – I don't want to say anything that I shouldn't say. I don't want to say anything in a manner that I shouldn't say it. I ask you, Holy Spirit, to be my Guide, to guard my mind and guide my thoughts and direct the intent of my heart to be in line with Yours. I pray that You would draw people to you, draw them close to You, pulling them close to your bosom, Father. In this time together, let them know how much they are desperately loved by You. I pray this in Jesus' name, Amen.

Alright Family – I'm excited – Let's get started!!!

So this Lesson is comprised of eight hours of Intel-gathering, which included transcription of meetings. So hours of meetings, but transcribing them, basically word-for-word, typing them so I have a full grasp of understanding, I can pray over it and know exactly what I am supposed to share with you. So after that, the Class itself, typing it out, prepping the Lesson was nine hours; and I am extremely excited. We have got a lot to cover so let's get started.

Inspiration – Do You Know Him? Who are you listening to? Do you hear His voice?

If you are His, do not be ashamed.

Jesus Before Pilate – John 18: 33 – 38

³³ Pilate then went back inside the palace, summoned Jesus and asked him, "Are you the king of the Jews?" ³⁴ "Is that your own idea," Jesus asked, "or did others talk to you about me?" ³⁵ "Am I a Jew?" Pilate replied. "Your own people and chief priests handed you over to me. What is it you have done?" ³⁶ Jesus said, "My kingdom is not of this world. If it were, my servants would fight to prevent my arrest by the Jewish leaders. But now my kingdom is from another place."

³⁷ "You are a king, then!" said Pilate.

Jesus answered, "You say that I am a king. In fact, the reason I was born and came into the world is to testify to the truth. Everyone on the side of truth listens to me."

³⁸ "What is truth?" retorted Pilate.

John 17:17 Sanctify[□] them by Your truth. Your word is truth.

Isaiah 5:20 ²⁰Woe to those who call evil good, and good evil;
Who put darkness for light, and light for darkness;
Who put bitter for sweet, and sweet for bitter!

And we're not just talking about the tendency in our world to call horrible, abhorrent things that are against God 'good', and 'praiseworthy', and yeah, people should change the sex they were born; and people should behave any which way that they want, and that you have complete freedom to do whatever.... WOE unto them that call evil good and good evil. The phrase, 'Woe unto them'. I learned what that meant years ago, and it had a profound impact on me. Any time you see Woe unto them in the Word, that has the idea, it would have been better for that person if they had never been born. God will be very very very angry with the way they have twisted, again, calling that which is good – evil, and calling that which is evil – good. That goes along with our faith. Shame on those who ridicule you for who you belong to, or ridicule you for what you believe and what you stand for.

Jeremiah 2:13-14 ¹³“For My people have committed two evils:
They have forsaken Me, the fountain of living waters,
And hewn themselves cisterns—broken cisterns that can hold no water.

So a cistern is a huge vat; like it would have been made out of thick pottery and they would have stored their fresh water in there for the entire village, or every home would have had its own cistern. So God is saying, that people have forsaken me, the Fountain of Living Water, the ever-flowing fountain, and they have created for themselves cisterns, broken cisterns that can hold no water. Think of it like faith – although something that is absent of faith, where they're just trusting in themselves, trusting in their money, their fame, fortune – whatever they are aligning their life to, it can hold no water. It is a poor substitute for a relationship with God, He is saying. It can hold no water.

I want to share some amazing Scripture out of Acts 19.

Miracles Glorify Christ – Act 19: 11-20

¹¹ Now God worked unusual miracles by the hands of Paul, ¹² so that even handkerchiefs or aprons were brought from his body to the sick, and the diseases left them and the evil spirits went out of them. ¹³ Then some of the itinerant Jewish exorcists (***that means people who are exorcists are those that can exorcise a demonic spirit***) took it upon themselves to (***also***) call the name of the Lord Jesus over those who had evil spirits, saying, ^[a]“We ^[b]exorcise you by the Jesus whom Paul preaches.” (***So here, that was sort of their profession to exorcise demonic spirits similar to now. Paul is doing that really good! He's doing a good job – let's copy what he's doing. They're like – He's much more skilled at this than we, so let's try it out. So they would walk up to someone who they have been called upon to help someone who is demonically possessed, and they say, 'We exorcise you by the Jesus whom Paul preaches. It's kind of funny if you think about it.'***) ¹⁴ Also there were seven sons of Sceva, a Jewish chief priest, who did so. (***Which means he did the same practice too***). ¹⁵ And the evil spirit answered and said, “Jesus I know, and Paul I know; but who are you?” (***laughing... Isn't that hilarious? It's not really because it's a demon but it always made me laugh. He asks 'who the heck do you think you are?'***) ¹⁶ Then the man in whom the evil spirit was leaped on them, ^[c]overpowered them, and prevailed against ^[d]them, so that they fled out of that house naked and wounded. ¹⁷ This became known both to all Jews and Greeks dwelling in Ephesus; and fear (***and awe***) fell on them all, and the name of the Lord Jesus was magnified. ¹⁸ And many who had believed came confessing and telling their deeds. ¹⁹ Also, many of those who had (***once***) practiced magic brought their books together and burned ***them*** in the sight of all. And they counted up the value of them, and ***it*** totaled fifty thousand *pieces* of silver. ²⁰ So the word of the Lord grew mightily and prevailed.

***When I reflect on that Scripture, it makes me think that when you really have a relationship with God, there is something very different about you. When you belong to the Creator of all that is, and you commune with him, there is something different about you. There is nothing fake, nothing counterfeit, nothing phony, no reproduction that holds no life, no fire, no light, and EVEN the demons of darkness will know your name!!!
Sometimes, I tell myself that I really really want to live my life in such a way that the moment I arise in the morning and put my feet on the floor, that the enemies of the light will say daggumit, she's up!***

The early Jews were very much an agrarian culture; they were a people who lived off of the land; planting and raising livestock. The relationship between sheep and their shepherds was very much a relationship which was commonplace and understandable to the people who lived in the days and the times of the Old Testament and the New Testament dispensations. “Sheep” was often a term used in the scripture to depict a believer; giving the idea that they are at home in the flock of God. The tender relationship with the shepherd and his flock. Today, in our culture, the term ‘sheep’ is almost derogatory – an insult, but this term would have carried much affection and more tenderness in their culture because of how much livestock were needed and valued in their civilization, and how very well they were looked after by their caretakers.

John 10:27 My sheep hear My voice, and I know them, and they follow Me

John 10:16 And other sheep I have which are not of this fold; them also I must bring, and they will hear My voice; and there will be one flock and one shepherd. –

Friends, we should be praying for those who still have not heard, who still have not understood the truth of a beautiful relationship that they can have with their Creator. What Jesus is saying is, we must bring them. They will hear my voice and there will be one flock, and there will be one shepherd. He is saying there is always room for more.

Psalm 23:4-6

⁴ Yea, though I walk through the valley of the shadow of death,

I will fear no evil;

For You *are* with me;

Your rod and Your staff, they comfort me.

⁵ You prepare a table before me in the presence of my enemies;

You anoint my head with oil;

My cup runs over.

⁶ Surely goodness and mercy shall follow me

All the days of my life;

And I will dwell in the house of the Lord Forever.

The scripture uses a phrase, your rod and your staff, they comfort me. That would be obviously the picture of a staff that a shepherd would carry as he is guiding and guarding his sheep along the way. Your rod and your staff, they comfort me. How can we look at that, when the shepherd is holding that staff up, that rod – he is working – he is watching – he is close to them. He might use that rod or staff to move them along in the right direction, or grab that hook and pull them back when they are about to go astray. That is the picture of an attentive, loving, gentle shepherd. When the scripture says here, You anoint my head with oil, did you know that the shepherd would have a little ceramic bottle with a cork in it, that had an oil and that if a sheep was injured, the oil would be put on the injury to keep it from infection, to keep it clean, to heal it and moisturize it like a healing balm. Did you know what else he would do? That loving shepherd would pour that oil in his hands, rub it between his hands, and just put it all over the head of the sheep and around his face, and then he would take an extra helping and just drip it on the head of that sheep. And you know what that does? That oil is a repellant to insects and bugs and things that would pester it and bother it. He anoints my head with oil. He not only will bind up our wounds and heal us with a healing balm, but your loving shepherd will even keep those things that pester you and irritate you, out of your way. Can I get an Amen?!

Romans 1:16 For I am not ashamed of the gospel of Christ, for it is the power of God unto salvation for everyone who believes, for the Jew first, and also for the Greek (***“Greek” here stands for gentiles – This would be any race of people that was not born Jewish.***)

1 John 2:28 And now, little children, abide in Him, that when He appears, we may have confidence and not be ashamed before Him at His coming. ***That is beautiful. I am proud of Who I belong to. I am not ashamed. I know his voice. I know He is my gentle shepherd. I know he speaks to me. He speaks over me and I know He does you too – many of you.***

We want to extend much gratitude to Gena, our Master Healer, for all the work she is doing for the well-being of our Ginger’s Liberty Lounge Family. With her God-given abilities heightened by the Father, we are seeing her Quantum Healing spread and bless a whole lot of people. What used to take Gina about three hours to do with one single person, it now takes her just a few minutes. The testimonies of those she has helped have been incredible! The most healings she has done with God the Father in one day has been about 32. To date, since receiving this gift of Quantum Healing from heaven, Master Healer, Gena has completed nearly 400 healings. Join me in giving praise and thanks to God for this blessing and for her being the worker of His hands!

We continue to receive the most beautiful testimonies from those in our family who have reached out to Ambassador Andrew and Ambassador Sheila to begin their journey into willful ascension. We thank you for your patience if you are waiting to be supported in this manner. The last I heard from sweet Sheila, she had a list of about 32 folks to

schedule with since she was pretty sick last week. Andrew is also plugging away steadily and supporting up to five to six people every single day, who have been likewise overjoyed with their experiences:

Testimony 1: Dearest precious Ginger, thank you from the bottom of my heart for putting me in touch with the wonderful heart angel Ambassador Andrew! What I have experienced at his side is beyond words! He is just like you, a great gift from God to us! Never before have I experienced such an incredible journey as with him, always heart full and beloved at my side! He has fulfilled some of my greatest desires that I have cherished for many years, to meet Yeshua once again, to travel through the dimensions and come home once again and refuel in the heart of our Father! In an instant, the intense pain in my neck, that I had been enduring since last night, disappeared! It was the greatest gift I have received in this life that he gave me so much of His precious time, He took me by the hand and introduced me to all the wonderful angelic helpers and our soul family! It is unbelievable with how much heart, love and humility he served me to take me on this phenomenal journey! He is obviously chosen by our Father and you notice with what ease he travels through the heavens and all the angels, archangels, Elohim, seraphim and also Yeshua, and our Father and the Alliance have greeted him as one only greets a beloved member of the family! From all the depths of my heart THANK YOU beloved Ginger for bringing me together with him as my reunited beloved heart brother, Ambassador Andrew! Thank you, thank you, thank you!! – Tinka

Testimony 2: I've had the honor and privilege of meeting and gaining a new friendship with my precious friend Ginger, (also named Evelyn). Evelyn was my grandmother's name whom I totally adored so I knew then, I was in good company with Ginger. Anyways, she referred me to Gena for some healing. Oh what a great thing because I began noticing, after my appointment with Gena, that I was feeling different in a good way. I know that things for me always tend to get worse before they get better. The symptoms I was experiencing never discouraged me because I have been believing God for a healing. So after my appointment with Gena, Ginger recommended I also meet with Andrew. Oh what a blessed appointment it was. He literally began seeing in the spirit in my life. He was pointing out issues in my body which he could have known nothing about. He saw the issues with my lungs, my eyes, etc... So here's my testimony: I've been seeing, on a very regular basis, my eye doctor for the past three years. I have severe dry eyes because of rheumatoid. I've had cataract surgery and am still having issues. When Andrew and Yeshua touched my eyes on my spirit being, during my ascension journey, I felt a deep warmth come over me. Fast-forward to today: I went to the eye doctor appointment to have a procedure done, and much to my surprise, NO procedure had to be done and my eyesight is now 20/20 vision. How good is God?!! Thank you Ginger for leading the way and being my friend; thank you Gena for caring enough to quantum heal others; and thank you my dear friend Andrew, an Angel in disguise, for loving enough to journey with me to the heavenlies where Yeshua and my Heavenly Father oozed love and gave me healing! We have a good, good Father! I received so much more on my journey but, that's for another day! I love you dear Liberty Lounge Family and today's testimony is to lift your spirits and to encourage you to keep on believing! Hugs! – Kewlmak

A Day in the Life of an Ambassador

Angel Armies: During one of my ascensions with Anita, I asked the Alliance members at one of the meetings: **“Do you watch me? Do you keep tabs on me?”** We were shown a holographic image that appeared showing continents that we all live on. All of a sudden, dots lit up all over the holographic map – with lights representing beacons of light that **we are**. There is a tracer beacon so that they can see where we are (Anita and me, and I am sure many many others that might even be in this group) and zoom into our frequency and check in on us to see how we are doing. They explained to me that this is because Anita and I are called THE ANGELIC COMMAND, and that there have been specific angels that have been given the task to watch over us, guardian angels who also work with and connect with the Galactic Federation when they need to; for instance, if they need to do something to support us further, or to keep us safe. It is not just for keeping tabs on our location, but it is also for the angelic command, so they can literally protect us and watch over us every minute.

Then I asked them, Wow that's pretty fascinating. **Have I always had a lot of angels protecting me?** The Alliance said that most people have a few or some that protect them. It is true that I have many more angels than most and I asked them why..... **“Why do I have so many angel warriors protecting me? I don't understand.”** “Because you are Gin Gin –

because you are *more than Gin Gin*. It is the role that you are doing right now”, they laughed. They went on to say that I will be doing a lot more in the future but it is important to protect me now, to get me to that point. They are telling us that I have needed protection throughout my whole life. I asked for more details: As infant I had some angelic protection but not a lot was needed way back then.

When I was age nine or ten, something happened in my life where things changed and more angels were dispatched in to help me – and even more when I started doing ministry work and even more when I started to create this channel. Anita then saw something and she asked me in front of the Alliance, “Have you traveled out of the country a lot before this? I am seeing things that really increased then, too, as far as your angel army is concerned.” I answered, YES! I traveled a lot out of the country when I did missions work. And right then and there, the Holy Spirit reminded me of an incident, when I know in my spirit that I required angelic protection. When I was 17 years old, I went with my youth group and a bunch of adults to Brazil. We had a wonderful ministry in Brazil for two weeks. One of the first days down there, I was in Rio de Janeiro, fresh off the bus, stretching our legs, going in and out of the shops. We were told we needed to be back to the bus at a certain time, but I was a little bit on my own, just checking out the shops right across from the beach. When I came out of the shop, something really strange happened. I was on the sidewalk facing the street and next to the curb, was an elderly woman with long blackish-grey hair, wearing all black, and she had all these leather cords and necklaces and straps around her waist and around her neck that held weird objects – little bags and little leather pouches of things and a hand-carved little talisman. She was a witch. She looked evil and she looked scary.

Now granted, I was wet behind the ears, a little naive, a little 17-year-old girl, but I was very strong in the Lord, and I knew exactly what I was dealing with. I knew exactly what manner of person she was. She looked through me – she started directing her hands at me, as if putting a hex upon me, and she was speaking in Portuguese, or an Indian dialect, and she was directing curses and spells at me. Well right then and there, I knew what was happening in the Holy Spirit, and I asked for the blood of Jesus to surround me, to protect me and that I would be protected by the heavens, by the name of my Lord, and that no harm would come to me, and that all curses would be broken by the name of Jesus. I was praying this and I was actually smiling – I wasn’t even scared. I was very much confident. Well all of a sudden, you guys, this woman looked with her eyebrows raised up, her eyes got as big as saucers, and she took a gasp of air and she ran away. She was an older lady, 67-year-old, she ran away from me looking scared as ever, and as I was hearing about this angel protection, I very very strongly feel that she saw I wasn’t alone. I was not alone that day! God is good!

Alliance Meeting Notes

We are going to share incredible information with you regarding med beds; and before we get started, I want to extend my deepest gratitude to Skye Prince for all her efforts in educating humanity on this advanced technology. She has been a faithful and dedicated teacher; and we have nothing but love and respect for her. I have often shared in past teachings how much her educational focus on the med beds have been acknowledged and appreciated by the Celestial Alliance as well. By entering into a conversation this evening which might provide a different perspective to some items you may have heard from Skye in the past, I want to take extra care to explain that no one is trying to discredit her or disrespect her in any form or fashion. This also has nothing to do with ego or trying to put out information in such a way that will prop up my own viewpoints, either. I see this as simply my being a seeker of truth and desiring to best understand the future technology scene so that we Ambassadors can best serve and support YOU all, our community and our family humanitarians who will be running med bed healing centers of the future. If this was about my own ego, I assure you I would not be putting myself in a place where I am pretty much attacked on a weekly basis. If this was about my ego, I can assure you, I would not be working this hard and I would be choosing to do other things with my time that put me first and things that are far less difficult – I can assure you of that. This was more or less, from the perspective of your Ambassadors, simply wanting to seek a second opinion. To illustrate that, many of you know that my spouse has suffered a knee injury and he was dissatisfied with the diagnosis given to him by the Nurse Practitioner at Urgent Care. Just a bruised knee would infer that he would begin to feel better in time. On the contrary, he began to feel even worse, so he simply sought another opinion from an orthopedic doctor, who felt strongly that Jim tore his quad tendon and insisted he get an MRI so we can see the extent of the damage. This diagnosis made more sense and it remains to be seen if he will need surgery, or if this injury will heal on its own.

Back to the med beds – The fact was, when those in our humanitarian community were told that they must stop worshipping God, or they would never be considered to be in service within the future technology healing community, they were distraught. Many were at the point of throwing up their hands in despair and willing to walk away from their dreams of funding or running a healing center, if it meant they would have to renounce Christ or give up on practicing their faith in order to be considered ‘good enough’ to help in this manner (funding or running a healing center). People were pained in their spirit by these words, while others thought it completely fine and celebrated this very bold stance they were hearing. A decent number within the humanitarian community felt abandoned and ostracized – which is also how many of those in Love Won Society have also been made to feel in the past over there. We know these feelings all too well, don’t we, family?

As Ambassadors, our goal was simple: Solely this – let’s get another opinion. With all the love and compassion I can muster within my heart, I want to make it very clear that I have no intrinsic need to be right. I have no desire to ever muscle my way into any conversation and push information into your face and insist to you – *this is what you must believe. This is the only way.* I’m not about that. I don’t have to prove myself – so let’s be very clear – that is not what I am trying to do. I do have an intrinsic need to tell the truth and to seek the truth. Anyone who knows me for a really long time, or has followed me for any semblance of time on social media, will know this about me already. I see these same exact qualities in Skye Prince, too – which I admire very greatly. So I see this as a conversation, more or less, in how are we all getting our information and from what source are we getting our information? And what is the filter by which, we personally use, to assess the information we are getting? I think that has a lot to do with how one interprets information, don’t you think?

So, what I am asking you to do is to listen to what the Ambassadors and Helpers have learned, and assess the information on your own. What seems true and honest to you – after you hear the details that will be provided? We should not be afraid of differing points of view, but allow them to become a springboard for further investigation on any given topic, so that the truth can be better understood. This is the spirit in which I will share with you the exciting information we learned from the Alliance regarding the current med bed technology that will be available to us.

.....
Alliance Meetings: Broken down into three Parts:

1) Med Bed Information 2) Ron Giles QHS Information 3) Miscellaneous Questions

Weeks ago, I was lying in bed on a Sunday afternoon. I was talking on the phone with Anita. We were having a very important conversation. My eyelids were starting to close, as if I could just doze off right there, so I began moving my feet rapidly up and down just to remind myself that I must stay awake for this conversation with my beautiful Anita. Then, we decided to check in with Celestial Alliance. I confessed to Anita that maybe I shouldn’t do this right now because I am so sleepy, I might miss something. She assured me that I would become energized and relaxed... That they would help me.

Over three hours later, boy was she right!! Actually we had two angels dispatched at my aide during the entire meeting - just to focus on me and my energy, calming me, relaxing me, and energizing me awake through the entire session. Now that’s being attentive and loving if I ever saw it!! It was a great meeting and everything was so pleasant.

Meeting #1: Alliance Meeting – Sunday, May 14th, from 5:30 to 9:00 PM EST

Meeting #2: Another Collaborative Meeting with Alliance – Wednesday May 24th, held with the Ambassadors/Helpers from 6:00 – 7:45 PM EST

The key thing I want to share with you now is the word “Trustworthy”. The care we have taken in collaborating must be explained to you all in detail. Anita and I had an absolutely incredible meeting with the Alliance on May 14th. They took their time with us and allowed us to ask whatever questions were most important to us. While the information we got was so pure and helpful, Anita and I did not want to bring the answers to you, as if it was information that was

only coming from just the two of us. Instead, we wanted to go above and beyond and bring the same kind of questions before the Alliance with others, who can also hear and confirm what they are saying too, to ensure that they are hearing and understanding the same thing. This way, we can bring you information without saying, 'Yes, *this is what Anita and I understood*'. But we can confidently explain to you today, that this was heard and understood by a team of trusted, highly vetted Ambassadors and Helpers and there were 12 present for this meeting on the 24th. You see, that is pretty significant, I would say. 😊 So, with that being said, I am going to share these two meetings, but not separately. I'm going to share them side-by-side, so you can experience it like we did. One meeting will flow into the next and then back again. So I thank you ahead of time for staying with me and I hope you don't get dizzy! LOL (*At times I will refer to Meeting 1 or Meeting 2 so you will know the difference in who was there.*)

I am now going to tell you the intro of **Meeting #1, on May 14th**.

Who was there?

We were taken in an ascension to a **Mothership**. There was a conference table. If you can picture: Anita was at the center, and I was to her left. Then Yeshua, Jesus, was with me; General, Mr G. (the top military General of the Military Alliance), President Trump was there, off to Anita's other side, and then JFK Jr. Commanders from the Mothership were directly across from Anita. Then, there were three Galactic Federation and three Ashtar Command Directors. They were wearing white uniforms (if you can imagine those onesies – they are shimmery white, like a one-piece white uniform and they had navy branding over their chest which described their medical specialty, and then to Anita's right was Archangel Chamuel. Yeshua was seated to my left, and Angelic "Jessicael" was standing behind me the whole time; her hands were on my shoulders and she was ministering to me. I want you all to know that this ascension was so important, and that the upper echelon – Trump, JFK Jr., Mr. G., the archangels – they knew that we had questions pertaining to the med beds and that is why the Galactic Federation and Ashtar Command members, six in all, were asked to attend, and they introduced themselves as The Directors and Designers of the very latest Med Bed Technology! Pretty cool, huh?!

Fun observation: "Archangel Chamuel, who you all know has been assigned to me as my special archangel, he said to me, "I love you. I am here for you. I have been here for you this whole time" – and it was he that was the one that was making me feel so energized and rested. **Another funny observation:** Anita was checking out JFK Jr., and she said, "Wow!..... JFK Jr. is looking very handsome and dapper". He had a full beard that was cut very close-shaven, tightly to his face. She said, "He looks good!" He was wearing a suit and a tie, a dark navy blue and red tie. And when she said that, *He looks good*, He gave a nod and a thanks 😊 I thought that was so cute.

So I'm going to tell you who was at the **Meeting #2 on May 24th**.

Who was there? On Wednesday the 24th, they were also taken to a great **spaceship**, but it was a Learning and Development Bay. In attendance at that meeting was: Amb. Anita, Ron Mc, Amb. Wendy, Amb. Andrew, Amb. Melissa, Amb. Elizabeth, and the following Helpers were also there: Sierra, Skipper, Isabelle, Bob 351(Robert, Terry and Rory. There were also Medical Directors from the Galactic Federation and Ashtar Command, who were present, as well as members from the Military Alliance, Archangels and Commander Sananda.

Note: Trump was *not* at Meeting #2, and JFK Jr. was *not* there, and Mr. G. was *not* there (but those gentlemen were at Meeting #1).

Q: Meeting #1: (Note: I had never met the Galactic side of them before. I just kind of run with the Celestial Alliance, so I was pretty excited that they invited the Ashtar and Galactic Federation there, to answer med bed related questions. They seemed very familiar and very open, so I asked:

Q. Do you know me? Are you familiar with me?

A. "Why would we be here at a meeting with someone we didn't know?" (They covered mouths because they didn't want to appear rude, but they were laughing their tails off). "Of course we know you, Evelyn. Do you really want to know how we know you?" *Anita was then given a download about me; but I don't feel the liberty to share the details with you yet – but I will at the appropriate time in the future.* But, yes, I was then convinced that they really do know me. 😊

At this other meeting on May 14th, they were taken to a Laboratory for Med Beds! ☺ There were domes in the back, which were med beds; they were glowing; and the helpers and the Ambassadors walked around and got a sense of their surroundings. There were holographic lights that were emanating in this Laboratory. Anita was standing beside a med bed and she said:

Q: Could you please explain the new bed med technology that Ginger and I were shown weeks ago?

A: They ushered the Team of Helpers and Ambassadors into the Learning Development Chamber and these are the observations from our Group: I'm going to call this "The Walk Through".

If you step forward, your frequency will activate whatever area you are in, and it will scan you automatically. Each one steps forward next to the med bed and the frequency is scanned right way – it scans with your energetic system. It scans the body at the molecular level. It scans every molecule as it goes by. It can manipulate the matter within you to correct, replicate DNA, to repair any given area of your body, replicating what is already a part of you. Not redesigning you, by any stretch, but using your own body to help repair and heal you.

Elizabeth: She experienced the initial scan of her frequency and DNA and what was required to restore her to perfect health. "I can see the light sequencing – it's going all around me. It is scanning us physically, mentally, emotionally, spiritually – every aspect of your body – the highest blueprint of your body. It's matching you up to your highest health. Each part has a blueprint, to match our own original blueprint for our highest health, to bring about molecular change for best healing."

It was described as feeling pleasant, cleansing, tingling, and a little bit of buzzing for some of the members. Some described it as a gentle washing – a hot and cool feeling at same time, like you would feel with menthol. It was said, "Oh my gosh, I can't believe this is happening! I feel it!" They were actually experiencing the med bed. Consciousness interaction with the med bed – the most upgraded versions of the med bed created for humanity.

Med Bed Construction: It was described as crystalline material. It was not plastic nor metal, but it was as strong as steel, but it was not conductive at all. Crystalline lattice structures overlaid, which delivered a different way to set up the molecules for healing, in that they do not emit energy as would something like radiation. However, they actually contain the energy and move it forward.

A Hologram became visible up above one of the beds. One of our members commented, "It might be one of us". We were seeing blue lines that formed the shape of a body, and different parts of the body were visible and highlighted. The ones that the military used were older and these med beds we were being shown were the newest technology. This also goes in tandem with one of the recent videos Skye Prince taught – I'm guessing a week, maybe two weeks ago – when she was describing three new med beds. Please check out the video. It was posted in our channel. Please also understand, the majority of people in attendance to this meeting had not even seen that video. So it's not like they were referring to something they were told by someone else. They were seeing it first-hand.

* They observed that there are different technologies for different frequency levels.

Melissa: "There is ultra-violet light surrounding the chamber. I felt light pressure; I feel ringing. There is a little bit of dull ringing in the ears, but it is pleasant though. It is not uncomfortable. There is a blue headband at eye level that is around my head and it is going all around. It is standing, but it is focusing on my head area initially." She asked, "**What is that device for?**"

Answer she was given is: The purpose is Attunement. Starting at pineal gland and going down the body, working its way down the rest of the body, to the heart, the organs and beyond.

Andrew: Asked about "If we want to learn how to play a certain instrument or download different things that we can learn, such as languages." The machine he was next to was just for that – downloading skills or languages. He said,

this is not a very big machine at all, interestingly. He was surprised. He said, describing it, “It has a place where you can sit and there is some head gear that is positioned right above you. The best way I can describe it is, it is like an umbrella that is over us, and you look into the lights and then you get a download of this information or skill. The variety of abilities to cure neurological disorders, peptides and neurons to connect, they can get the wiring in the brain to operate correctly again. It can repair all damaged cells that have been damaged by shock or trauma, or PTSD, etc.

Andrew continued: Not only will it teach you the skill level required to play an instrument, for example, it will also develop muscles required at part of your body which is needed to play the instrument comfortably without a break. The muscle development will be gained over time with continued use, though. An example was given: Dexterity in fingers in order to handle the instrument smoothly and to operate it. Immediately, I was shown an image of someone learning to play the violin. If they were to play the violin for a long period of time, they would need the upper body strength to handle the arm movements for a sustained period of time. Then, he went on to say, “This machine is for your brain to communicate with your hands, your fingers, your arms, to perform properly; that your nerve endings will communicate with the brain and the fingertips to operate the skill. It is for very specific ‘brain training’ -- and then you will get the muscle development for it happening on another bed. There are different stages of programming: The brain with the skills, and then the physical body development to master the skill is also an option.

Different attendees at the meeting were experiencing different technologies or standing next to different technologies, but they could also be experienced in one single med bed as well! We all put that puzzle together.

Sierra stood by the type of bed in which you can lie down, and she began to see the bar that moves over your body to scan the body.

Anita said: “They’re letting us play in a candy store a little bit! This is so wonderful. I am going to ask our guide to come forth.” And as she said that, **Ambassador Melissa** chimed in: “There are many different higher types of technologies that each meet a specific need, I am being shown”. There are different varieties that help different frequencies for different needs. For example, if we are faltering in one area, we can get that aspect fixed, and then we can move on to other areas that we need help with. So that will help our overall priorities, our purposes for each person, our individual mission. I want to say that again, because it was powerful. She says that **we will be able to get help with our own individual bodies in all of our areas, that will help our overall priorities for our lives, the purposes for our life, for each individual person and whatever your individual mission is!** Isn’t that beautiful?! She went on to say, “We are being shown a sampler of many different types of technologies – it is like a Chinese menu of options for different needs; a different sense of purpose or mission that each of us will have to get us up to speed, attuned, upgraded, to fulfill our highest purpose. We don’t have to do it all at once either. It can be done in increments over time, depending on the need.” *In other words, it is not a once-and-done.*

Andrew: “How they are connecting with us is to help us all understand that one med bed will be able to do it all. They are showing us these prototypes of how they have progressed up to this point, and now they are showing us these perspectives as individuals, but they are also showing us that there is one bed that can do it all simultaneously.

Anita saw a singular bed which scanned the entire body energetically and physically and it fixed everything that needed fixing. We are getting the download now of the perspective of the separate breakdowns of what one bed can actually do. All of us are bringing the puzzle pieces together of the design, to see how this technology works. We are actually experiencing training right now. We are now being taught how to make them work. Even our thoughts can know what the med bed is needed to do, and we, with our thoughts and own consciousness, can operate the bed for ourselves and others. WOW!

Now this information will go into information that Skye Prince has shared and I am Titling this section:

Topic: Skye - Teaching Re. Matters of Faith and Med Beds – Don’t Mix

In Meetings #1 and #2, the similar questions were answered and I will share the questions and the answers with you. Remember, at my meeting, Trump was there, Mr. G., JFK Jr., the Archangels, the Galactic Federation, Ashtar Command - Three of the Medical Directors who created the med bed, were there to all answer the questions.

Questions:

Q: Can we receive healing with the med bed while retaining our current religious beliefs? Will there be an issue?

Answer Meeting #2: It was where the Medical Directors began to step forward, there was corroboration with these Galactics who are in charge of the med beds, creating them, developing them, and there was a unanimous “No”. There will be no issues. **It was then understood: Religious beliefs will not restrict med bed healing whatsoever.**

Q: Meeting #1: Will people like me, who are Christians and read the Bible, have our minds wiped of the things that we believe?

Answer: NO – Absolutely no (Remember this was the conference table, not the Lab. Everyone at the table said NO) That is not sovereignty. What does that look like to you? They asked the rhetorical question: That looks like a slave system. There is only fear in that kind of dialogue, and that is not where we are heading.

Q: Meeting #1: Skye says that people must ‘get rid of their old crap’ before they can really be helped. Is this true? Do people have to abandon worshipping Creator to have Military Med Bed Healing Centers – working them, managing them, funding them, etc?

Answer: Meeting #1: Anita and I received an emphatic “NO”. We didn’t want to just trust it on the two of us what we were hearing. We asked the same question as a Team, on Meeting #2. The question was asked in a different way.

Meeting #2: Do people have to abandon worshipping Creator to have Military Med Bed Healing Centers, running or funding them? Same question, just asked a different way.

Answer: Meeting #2: Definite NO. It was unanimous. It will have nothing to do with religion. Between healing in a med bed or running a Center – NO. Anita heard: I am getting, for running a Med Bed Healing Center, it is helpful and increases one’s frequency, to believe in Creator and especially to actually have a ‘connection with Creator’. This such belief system is of higher frequency and, therefore, belief in Creator should be seen not as a hindrance or handicap, but a strength and help. All this was helpful for bringing in more healing for yourself and others – the higher frequency.

Andrew Commented: What I am picking up, is that a lower frequency will still not stop the healing – they will still get the healing, such as if they do not believe in Creator God, but they could be helped and supported by returning more to the med bed treatment more often, which, in doing so, will raise their frequency intermittently. Whereas, someone that would have already a higher vibration, and heightened understanding of Creator in belief – the belief will actually definitely speed up the process of healing. At the end of the day, even Yeshua gives the answers when He walked on earth, because he was like the human version of a med bed. He spoke it, thought it, and Boom – there as healing.

Anita said: “They are telling us that we are going to eventually learn to BE our own med beds in time in the future. We will have the ability to heal ourselves eventually. In time, we humans will move on from our thoughts actually creating the trauma in the brain. Bob Proctor said, disease is the mind of un-ease. You will get a full healing, but the feeling and health thereafter, will be according to your beliefs. Your own beliefs will determine how long the healing will stay. People can work on their own healing, so that they can learn not to recreate their disease again. That reminds me of the scripture where Jesus said, ‘*Be it unto you as you believe.*’ What you believe you become (Ginger).

This Part was Really Important:

*The med bed is designed to help people grow in their frequency, because health and frequency run together. **The idea is that the med bed “Cannot help people unless they have a high frequency” -- is Misinformation.** That is not how these beds were designed. The Galactics said to us, “Why would we put them all around the world, if most of the people could not even use them?” (It remains that they will not work for any evil people – but they **will work fine for 3D people**, in general. Even Skye has nicely taught that truth as well). The idea that it won’t work on you, unless you are of high vibrancy, like a 5D or higher – those ideas are purported by other truthers and they are not true at all.*

Q: Meeting #1: Can I have a body modification at my med bed appointment, even though I go to church, I read my Bible and I really love Jesus? (I am asking this because my friend, Skye, asserts that people like me are too far gone and brain-washed. She claims that we are too ‘mind-controlled’ to be helped right away with the really big - advanced - stuff like body modification and age regression.) She said those things will happen after people let loose of those beliefs.

Answer: *At this, they laughed a lot and they said, “You are so very sweet”. They said “Yes, you can, because you are of high energetic vibrancy and your body can hold more light. So yes, you can have that done. The Ashtar Command and Galactic Federation explained that body modification will happen for me at my first appointment. They even told Anita and I the exact weight they saw both of us coming out with, from our very first appointment, based on our own height and our bone density. They quoted the exact weight she was going to be and that I was going to be at our appointment.*

More explanation: We went on talking about religious beliefs and matters of faith, and they went on to say, a lot of Christians are not like you, Evelyn, they said. A lot of Christians think it is not possible to have non-terrestrial life. They are so dogmatic because they believe the inverted lies from cabal – so regimented – they may not be able to handle the light frequency. They also knew that I have already been using frequency healing energy work (scalar and spiritual) and that it has already changed my body in less than a year’s time. This improved my own belief system and that helped me with my own body and with my own development and my own understanding.

People’s belief systems may not allow them to get a full-on healing right now, off of the med bed (such as body modification, age regression). Most disease is 3-Dimensional and very low frequency, and that will all be healed instantly, right way - all of it. (Cancer, diabetes, Lyme’s disease – everything – viruses, bacteria, toxins, metals, fungi, etc.) That is why they want to use the med bed to help heal people gradually. Most people feel miserable and they even have a miserable outlook on life. For example, they sense that they don’t deserve to be loved, or they don’t think of themselves as good or worthy, and they hold on to bitterness or unforgiveness, and these emotions can create sickness within themselves.

There is a book that I have referred people to in the past that is phenomenal. It is entitled, *“Deadly Emotions”, by Author, Dr. Don Colbert*. In that, I even learned that fibromyalgia is such a very very painful disease, and they have learned that fibromyalgia is actually linked to unforgiveness or bitterness. Isn’t that interesting? The scarcity mindset does not help them either, the Alliance explained. So they feel very stuck. A changed mindset is necessary, so they can be happy and healthy and hold to the light longer and stronger for ongoing healing. All of society is moving and changing and it will only help everyone. That will support them to also hold good thoughts. It is a process. Some of us will move through this phase rather quickly, because we are thinking in love, and we can handle the quickly processing of our healing for our mind and our body modification. Believe and live in abundance, and be in Joy, and then we can maintain healthier bodies. The Humanitarian Projects are really about Abundance and Joy – two biggest factors, the Alliance said. These factors will bring society and civilization up to that next place that we must go. This is why they think of us as heroes, friends. **We have the task of bring Abundance and Joy to all of humanity and we have to offer it to ourselves first, in order that we can help others.**

Q: Meeting #2: If we request it, can we choose to use the med bed to have any religious falsehoods, that have been implanted and instilled in us from the cabal, revealed to us? (As in, falsely implemented beliefs revealed.)

Answer: Melissa got “No, it has nothing to do with that.” Sierra heard, “I am learning that does not have to do with the med bed. Example: If war memories and traumatic experiences, can memories removed help them restore? If it

is too emotionally damaging to your well-being, you can choose to release that paradigm or that memory, but religious beliefs are not either good nor bad and they are not a part of the healing that one will get in a med bed. Your own belief system is something that you will have to work on, on your own personal spiritual healing of yourself – which will then affect your physical well-being. So you can create some of this stuff again if you are not working on your own spiritual connections. Yeshua answered, “No” and this was also understood and agreed with by the others. Anita said: This is very interesting, considering what we have heard about this stuff in recent weeks about religious beliefs. (from SP)

Q: As you all know, I am an admin with Skye and her Med Bed Group and I have been there since her beginning on Telegram. I have much love and respect for her as my friend. I yield to Skye on all matters of the technology, itself. However, she and I hold diametrically different positions on matters of only a spiritual nature. Because of this, do you think that I should gracefully bow out or step aside, and just not be a part of the Med Bed Community anymore?

Answer from Galactics and Alliance: *No. Stay and be a loving friend. Your light will be helpful in this situation. Your light will also continue to help group members. (I also got that those who think and believe like me, needed my voice, as much as they need her voice. It balances things out. Then I saw a vision of the yin/yang)*

Q: Do you have any final words regarding this conflict we are seeing amongst our humanitarians with what Skye is presenting?

Answer: *Indicate to people that God has a plan to use the med beds for everyone’s benefit – and do not worry about any harmful things, such as being forced to let go of their faith or their memories being wiped away. How you look at God might change in the future, but no one will stop looking at God, nor will anyone tell you to do that either, they said -- Because God IS an Absolute Certainty in our Universe. In fact, our concept of God will get larger. Religion tends to be controlling of that. It can actually limit our understanding of God the Father – But our knowledge will expand. Even the cabal will not claim that God does not exist. So no one will be made to feel that they cannot worship God. **To be very clear, there is NO question here at this board meeting table, that everyone here (the Alliance) is working for God.** (Remember those in attendance of that meeting were Trump, JFK Jr., Mr. G., his aides and the Military Generals, also Archangels, Galactic Federation, Ashtar Command.)*

Q: Many in our Ginger’s Liberty Lounge were concerned about things that they heard from Skye Prince regarding matters of faith, spirituality or religious views? What is it I tell our people, please?

Answer: *EVERYTHING that is happening is to help mankind only and not to create further obstacles or hoops that you have to jump through. That includes people do not have to abandon their faith in Jesus/God. Their own beliefs will morph into what is of their higher and best good in the future. Anything that takes away a person’s Sovereignty is not for their highest and best good. It will all be organic. It will be exactly for that person as he/she needs it. The focus here is to GROW in their connection of and with God. When you GROW, yes, you change. You with adapt. You will develop. Some people will have their faith, but it may look different as they grow and change over time. And again, it will be always for their best and highest good; and **people should never ever be pressured into abandoning their faith whatever it may look like.***

Topic: Ron G/LWS Communications (Re: Email sent out on May 14th)

Q: Meeting #1: Did he write this most recent emails?

Answer: Yes

Q: What are your thoughts about his remarks? Quoting Ron’s email: “I have full confirmation from the Alliance about the healing technologies used by Q.H.S. (Quantum Healing Systems).”

Answer: The Quantum Healing System does not use Quantum technology. It is Scalar Frequency – it is not even Quantum. How ironic it is to have ‘Quantum’ in the name of a system which does not even use Quantum Technology.

And they laughed.

Q: What are your thoughts about Ron's remarks here? Quoting Ron's email: "What does it mean when someone bad-mouths QHS or LWS? It means they are not available to the Alliance for confirmation and would rather believe the dark side that attacks anything they do not like. The problem with these types of people is the reality that the Alliance uses all of these false accusations in their vetting process. Little do they know that without the ability to get correct information, the Alliance is dropping these people from consideration for the Redemption Appointment. If you listen to those who are not part of the Alliance and use the information they give to justify your errant behavior, toward either LWS or QHS, you will have consequences that you may not like. I suggest that if you do not like what QHS is about to do for us, then ask for your money back and wait for a year or two until the bad folks get a pretend med bed that is not confirmed by the Alliance. Not being able to get confirmation on life-changing personal events from the Alliance, means you get to continue to believe in things that are not true."

I read that to them and asked them – What do you think? I said, Anita and I see this as fear mongering and gross manipulation of the truth. The Alliance was NOT happy at all, with these remarks that he emailed.

Answer: *It always comes down to the individual and their hearts. It has nothing to do with QHS or LWS. The feeling in the room changed when she and I brought up QHS, because it is not part of what they (the real Alliance) has designed. They called it, a "Bastardization of the Med Beds". (pretty powerful, huh?) It is only using certain frequencies. They are mostly using scalar healing, which is very very good, but the MB is using Quantum. The QHS are not quantum but simply scalar frequency.*

Anita added: *We knew this was going to happen, but this is very hard and sad to watch. People needed to network – and look how great you all are doing at that – and how much stronger the family and all of you are together) (she was speaking of GLL).*

Mr. G said: *Look at everyone in the Lounge – you are coming together – you're using discernment. Isn't it funny! Why can't people even see that scalar technology isn't even where it's at? (Because it pales in comparison to Quantum Technology)*

And at Meeting #2, this topic was also brought up, because Anita and I did not just want you to take our word for it – we wanted to collaborate with the Ambassadors and Helpers. So this question was brought up on Wednesday:

Q: Meeting #2: What is the New Earth Alliance's stance on the QHS promoted by Ron Giles, and offering for their LWS members? The one that is \$400 per year Membership.

Melissa: *I'm hearing it has to stop. Anita heard again very clearly: It is not even Quantum, but it is scalar frequency.*

Andrew got: *It is Business. It is personal gain. The Alliance was telling him that it has nothing to do with healing humanity or even humanitarian order. This that they are talking about, the technology coming from the Military is coming to heal humanity – and only IT is coming from the Father. The one that Ron Giles is purporting is failing. They wanted to make some money now, as we wait for the Camper Event. It is the frequency healing that has been around for a long time already. This isn't new technology - It is effective, but it is not on the level that med beds are. This scalar was created by great inventors and universities down here on earth. It is not quantum.*

Other Helper heard: *They are telling me it is being misrepresented. It is not true.*

Sierra heard: *I get a strong sense that QHS is very different from the real MB, and it is not something that should be relied upon for true and precise healing.*

Question regarding his Email: What do you think about his comment about "bad folks"?:

Answer: *(They started laughing.) Does that sound like the truth to you? It sounds more like – 'We don't want to lose any money with the Q.H.S., so we have to prove to people that we have is the real deal.'*

They offered a suggestion: *"Ron says, I have full confirmation from the Alliance about the healing technologies used by QHS..." The Alliance said: Offer your people the question – "How does that sound to you?" That way, you listeners can decide for yourselves.*

Anita asked: **Does someone have control over him?**

Answer: They shook their heads sadly, as if it is such a shame. That was all - they wouldn't say more for right now.

There was more discussion on the fact that QHS isn't even "quantum" anyway. It is scalar frequency healing only. This is more that came through from the Alliance:

Anita explained: This is what they are saying: *You can pay for scalar technology, if that's what you want to do. They show us that when these people on the other end get the money after having misrepresented themselves, they will not even be able to keep the money because that came about through misrepresentation, by lying about the technology and what it can do – but the customer will ultimately get their money back to themselves. This will continue until the scammers out there, are out of business all around the world. Or, the QHS will have to admit that they will heal people using scalar technology – and be honest. It will have to be one of these scenarios. No money can go from points A to B if it is from ill-gotten gain or deceit, manipulation or misinformation. Won't this be funny to watch in a really sick way? Anita laughed, seeing the irony of it all.*

People who sell things will have to be very honest about the services and the quality they offer, because if they take advantage or mislead people on any level, then they will lose their money in the system that is coming forward. It will go back to the person who paid for it, if there was purposeful misrepresentation. All businesses must become totally up-front and honest to sell their services or products. THIS is going to change everything very quickly. No one will be able to lie or scam people going forward.

At this declaration from Anita, revealing what she was being told, Yeshua stepped forward and Jesus said:

This is my Father's system. This is the Q System – the Godly Q that I taught you about at the 7th Dimension. Q shows you how much help humanity needs to have this system in place, he said. Q will help us see that we are worthy to have abundance, and then to help see to it that everyone is honest and true . HUGE changes to come, Jesus said.

I read the last quote from Ron Giles, which is FULL of control and manipulation. It was pregnant with 'You'd better believe what I'm saying or else' ... and I let them know I did not like it one bit! Here's the quote:

"Wait for a year or two until the bad folks get a pretend med bed that will not be confirmed by the Alliance. Not being able to get confirmation on life-changing personal events from the Alliance, means that you get to continue to believe in things that are not true."

Answer: *They were very very disappointed with these words. And then lightening the mood, Mr. G said, "Hey, I have bridge in Brooklyn that's up for sale – you want to buy it?" (everyone laughed)*

Miscellaneous Questions:

Q: Meetings #1 & #2: Will all humanitarian benefactors be going to military facilities for our initial MB healing appointments?

Andrew heard: No. He got multiple answers. They will be on hand at other healing locations for early roll-out. The military have got the beds all over the place. Wherever your Redemption Appointment facility will be, there will be a healing center designated by the Military for you to attend nearby, in somewhat close proximity. The secure location, besides the military facility, will be available.

In my meeting with Anita and the Alliance upper echelon, she and I were actually given a distance of how far we will travel, across what State line. We were actually given a hint of where it is, and how well it is protected. I cannot give details.

Q: Meeting #1: Where is Satan in all of this? *The Galactic Federation (medical people) replied: “No we are not touching that one.” Archangel Raphael ‘Nope. Me neither’. And Yeshua stepped forward.*

Anita explained His answer: He said, ‘Satan is the fly that got caught in the ointment.’ (LOL) We immediately got a vision of a healing balm that had a gnat stuck right down in the middle of it, like a stuck fly in gum. He gave a salute – and we laughed – we thanked him for that great answer, and He said “My pleasure”. We thought it was the perfect thing to say, describing the devil that way, a great illustration of how puny he really is, in the whole scheme of things.

Q: Meeting #1: What is holding this up? Answer: Nothing is holding it up. Everything is going according to plan. We can't tell you the rest, except that everything happened the way it was supposed to happen, from off-world, all the way down to the earth.

Q: Meeting #1: What is really going on at the Southern Border? Answer: While they explained things to Anita and myself, I am not given permission to explain the details to you all openly. I have been asked to remain quiet. However, this is what I was allowed to say: It is not what it seems. *And if you wish to learn more, I would advise you to go back into our newsfeed on our channel, and pay close attention to any puzzles that Skipper has given our family in the past. Answers can be found there but I will not betray the Alliance's trust in me, nor will I reveal more than I am permitted.*

This is what I was told to say: “You can remind people that this is all part of the movie.” My reply: “My people are sick to their guts of *the movie!* No more popcorn! We are sick of it all!” Then President Trump replied: “Just remind them then, that everyone is safe that your President would never put you in jeopardy.”

Q: Meeting #2: LWS sent out an email stating that the SKRs given by LWS to its members, stating, “This program is only for LWS members; please learn the programs on the blog and take it all to heart.”

Q: Is it true that LWS is unaware that the Alliance will redeem LWS gifted SKRs at the Redemption Appointments?

Sierra immediately heard: Those heading up LWS don't want to hear this, let alone be aware of it or to know this.

Andrew heard: The SKRs represent gold reserves. We have been advised before, that heart centered humanitarians may even redeem fake Zim bonds in the past. The Alliance's main goal is to move the Father's Gold. So if that is the case, do you think the Alliance really cares? They want to move the Father's gold, so they have to have something to attach it to – and they want to attach it, by whatever means available, to YOU the Sovereign. It has nothing to do with Mr. Giles. **Anita heard:** This is exactly what I am getting too. It is simply a piece of paper that connects us as an individual into the Gold Reserves. They want to be able to move the gold around the world. **Andrew added:** Mr. Giles is trying to exercise some kind of cabal control over us, because he wants to now control the masses – and this has to be more about his own ego, perhaps.

Anita asked the rest of the Helpers and Ambassadors: What are you hearing? Are the SKR's going to be redeemable by anyone?

Answer: All unanimously heard and responded: “Yes”. Others: “Absolutely YES”.

Ginger: *It all has to do with moving the gold reserves. So you can be confident, dear one in the sound of my voice, that if you have a true humanitarian heart, then here it is: You will be fully redeemed to get that gold out of gold reserves and to go on to helping humanity. We can do it!*

RE: Juan O Savin and his views on instituting NESARA/GESARA (This next question comes in two parts.)

Q: Meeting #2: So Juan O Savin indicated that it (N/G) would not be fully implemented because if it were, the effects would be disastrous on the economy; and he discussed the matter of avoiding contract law which would collapse businesses. My understanding is that it may be implemented over time.

Q to the Alliance: So what are you getting? Will it be happening or not at all? How will they be implementing N/G?

Andrew spoke up first: I am getting from them, that one system will take over the other. Yes, it will all collapse. It will collapse the fraudulent system and that is what they want. Both will exist and run together and one will overtake the other. It will roll out over time. It will happen all over the world, gradually and it won't make any difference.

Melissa said: I am seeing two running at the same time. It is already running side by side. There is no rush. It will take as long as it needs. Everyone was hearing 'gradual' implementation, globally.

Anita wrapped it up and said: What I am getting from the Alliance, is that the humanitarians will be further along into N/G than the rest of the world. It will be on a couple of different levels, as people's frequency change and develop; and as information comes out, people will catch up – but the humanitarians will already be funded and we will already be fully installed – already into the flow of NESARA/GESARA. The same was understood unanimously by the rest of the Ambassadors and Helpers that were at that meeting.

Q: Meeting #2: Regarding BRICS Nations: It has been proposed that the nations that currently make up BRICS are a fraudulent representation because BRICS is the black hats attempt to simulate what the WH have planned for N/S. Is it true?

Andrew spoke up first: No, it is not true, because they are already running a QFS system which is the forerunner to test all systems. **Anita asked:** Are they telling you that, Andrew? I am seeing that it is already implemented and that they can already trace everything, and it is a part of the sting operation into finding the nefarious money. It has already been operational. Then there was a unanimous "BINGO" from many of the attendees.

Anita: Is anyone else getting the same information as Andrew is hearing about BRICS, and that BRICS is a control group of the QFS international system?

Answer: YES – It was unanimous affirmative answers.

Then they gave us this 'take-away': Be careful everyone, and use discernment, because so much disinformation has been put out to the masses on purpose. You have got to focus on this truth that revealed to you today.

(This was just fun. This was a three-hour meeting with Trump and JFK Jr., the archangels, the GFed and those folks. They were just so cool and casual, and let Anita and I just ask anything and everything. I was feeling a bit loosie-goosy, so I asked Trump...)

Q: Meeting #1: Ginger asked Trump, "Will I be able to quit my job so I can focus on my Ambassador role full-time? Will I get the financial help I need? Then I joked with him, being a billionaire and all – I asked him, 'Sir, can you help me out and send me some moolah?'" We all laughed.

President Trump responded: "You never know where help may come from." And he winked at me and then he blew me a kiss, and then I sent one back to him and he caught it in the air and he said, "That's my girl". 😊

(I also want to say a humble Thanks to all of you who have shared from your abundance - and even from your lack - and have provided to the Helper's Campaign, in a goal to help me be free from my job. I humbly thank you. I'm not ever going to ask anyone for money - you have my word on that. It's my promise - That's not what I'm about. But I am deeply grateful for everything and for everyone and for your prayers. You are carrying me more than you can even imagine, and I am humbly grateful to all of you.)

Anita added: Can we get the show on the road? (meaning can we hurry this whole process up?)

Answer: The Alliance members laughed, and then they said: The show is almost over!

Q: Meeting #2: What other information or guidance do you wish to give us at this time, before we end our meeting?

Anita said: They are asking me to bring down some coding for everyone. (After she brought down her light codes – it was beautiful, by the way).....Andrew, I think they have got some for you too. (Andrew, likewise, started speaking in spirit and bringing down the light codes from the heavenlies). Anita thanked them, and said that 'more coding and more information was coming through for us right now'. She humbly thanked them for their guidance.

In that instance, Anita interpreted these Light Codes for us: *They are helping us to anchor in JOY because many of us feel worn out, weary and beat up by what is going on with our families, our work, our finances – and they just coded in to connect into us – JOY, so that we can keep on going. And they were holding in some coding for our understanding of what we experienced regarding the med bed technology that we were shown. Andrew – what I got from your download is that you are bringing in a direct conduit connection to Father’s Heart for us, to help sustain us all. Andrew said: I am also getting the word **Victory**. Today is **Victory Day**. Victory Day is past the green light. Last week, I’m being shown, was a ‘green light’, but this is Victory Day. What I am hearing is that it is open today - and it is Victory. We can start celebrating.*

Anita exuded: *I am ready to celebrate! Woo HOO! And many of our family said, Hallelujah.*

Melissa chimed in: *They are saying, “You are Ready and it is Time”.*

Andrew ended by saying: *Keep devices charged -- you certainly will not want to miss your call.*

And then, all of those that were in attendance at that Meeting (the Galactics, the Archangels, Yeshua, the Military Generals that were there (not Mr. G. but the others) They are holding hands and encircling all around us (*this was inside the Learning and Development Lab that was holding all the med bed technology*) and all of them circled in around the Ambassadors and Helpers that were present, holding their hands encircling them, sending them love and hope and gratitude, and saying to all of us, “You’ve got this. You have it. It is already here.”

Q: Meeting #1: What are your Last words? Is there any advice that I can give our Liberty Lounge Family?

Answer: Please use your best discernment in these coming days, and follow to your hearts.

Q: Meeting #2: The same question was asked at Meeting #2 – Any advice or last words...

Answer: Yeshua stepped forward and Jesus spoke and said: “Each and every one of us will have holy protection. Wherever we are going and whatever we are doing we will remain protected. The heavenly realms have been commissioned on our earth level, that the Military will be there to protect you at your redemption meeting spots and your med bed spots. You will be safe. You are of the Selected Ones and All Of Heaven is watching over you. Enjoy your appointments, everyone! He said.

*And as I close Part 5, of Chronicles of an Ambassador,
I leave you with this Scripture, and with all the love and devotion that I possess in my heart
for each and every one of you within the sound of my voice,
and reading these words, days and weeks after... ..
I Love You.*

²⁵ the Lord make his face shine on you
and be gracious to you;

²⁶ the Lord turn his face toward you
